

5Q INTRODUCTION COURSE

[A 6-week introduction to 5Q]

INNOVATE in partnership with the 5Q Collective exists to empower leaders and equip churches to release potential in and through the body of Christ.

- The 5Q introduction course has six sessions.** These are designed to cover the foundations, core concepts and content of APEST and 5Q at an introductory level.
- In each of the 6 sessions, the training will raise 5Q awareness and activation,** including understanding 5Q biblical foundations, seeing Jesus as an embodiment of APEST, and using APEST in training leaders, creating culture and communal practices.
- 6 weeks coaching with 1 hour a week contact and a message board for peer learning and discussion.** The coaching gives a 5Q overview from an experienced practitioner within an environment that gives participants direct input, discussion with peers and others on the journey, as well as some work for participants to apply in their own context. This coaching will provide a learning experience, and introduce participants to local leadership and lifestyle in APEST.
- **The 5Q Introduction Course is designed for any leader who is at “first or early stage engagement” with APEST.** Participants may have only read the 5Q book (or *The Permanent Revolution* or *The Forgotten Ways*) or be relatively new to the discussion. It provides a stimulating environment to receive initial input, as well as an intentional process to enable first steps in engaging with, understanding, and applying APEST.
- CDN \$400/person for the course**
